

# A Madden Just For For Me

Song by Nicholas Karr and Scott Wozniak, Lyrics transcribed by [44nifty](#)

Madden '03 and '04, you played for the lore,  
packed with stuff never done before!

Madden '97, turned it to 11,  
this game can cure all kinds of depression!

Madden 25, what, did we travel through time?

*Yeah, I mean it was pretty alright.*

John Madden Football, now I've seen it all,  
shows how the mighty just refuse to fall.

Pick any game you want, you have my guarantee!

'Cause there's a Madden just for me!

*Yeah, I know. I hate talking politics but everybody has a right to Madden, just ask the Madden 3DS community, those guys get it!*

Madden Overdrive, not a nosedive.

EA Sports, you continue to thrive!

What their bottom goal, their honest intent?

Providing players with pride and accomplishment.

Madden CD, oh boy oh gee!

Why can't these things start growing on trees?

Madden '08, it's Nirvana on a plate.

*I don't like that one.*

*You're a f\*cking disgrace.*

Pick any game you want, you have my guarantee!

Choir: 'Cause there's a Madden for-

*Scott: Not you.*

Me!
